

SFO (Splitter Fan-Out)

The space and cost saving cable system

11.2021

Reduce complexity

This versatile 3-in-1 product combination is composed of a patch cord, splitter box and fan-out cable.

Improve efficiency

With fewer connections, installation is fast and easy, leading to reduced failure rates.

Strengthen signal performance

Less connections mean lower insertion loss ensuring smooth operations in applications now and in the future.

Save valuable rack space

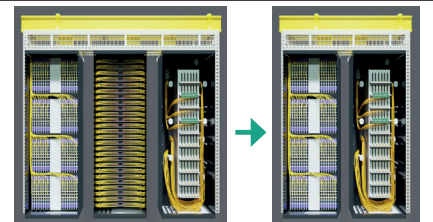

The ultra-small plastic splitter enclosure saves space even in fully equipped racks.

Ensure scalability

Efficiency gains combined with a space-saving design provide future-ready scalability.

Invest in growth

Up to 30 % more space for new revenue-driving equipment.
