

High voltage distribution unit

A modular solution to achieve flexibility

Features

- Modular solution
- Designed with standardised components
- Compatible with HUBER+SUHNER high-voltage portfolio (HV RADOX® cable and connection system EV-C)
- Full automotive validation
- Robust design

Benefits

- Scalability of inputs & outputs
- Easy to adapt
- Commercial off-the-shelf product
- Suitable for harsh conditions
- Proven internal connections, terminals and busbars for improved power density

USPs

- Improved lead-times
- Fast assembly and installation onto a vehicle
- Vehicle time-to-market reduction
- On and off road readiness
- High power distribution efficiency
