Strategic focus – Ambition – Customers & Markets

* Corresponds to 'Consumer issues' according to ISO 26000

We strive for a balanced and focused diversification of our business at all times by managing our current business and developing new opportunities for the future.

- **Core markets**
- **Focused market verticals**
- **Growth initiatives**
- **Opportunities with growth potential**

Our ambition is to maintain a best-in-class position within our industry. In the face of ever-changing needs and market trends we operate with agility and act in these three key areas.

- **Target markets: hold strong position**
- **Operational excellence**
- **Technology & innovation leadership**

With global sales teams we are close to our customers and we achieve an outstanding customer knowledge that enables us to provide excellent end-to-end experience.

- **Deep understanding of customers' needs**
- **Superior product and technology expertise**
- **Outmatch customers' expectations perpetually**

The dimensions of our vision

Our Mission

What we do
to achieve
our vision.

We operate globally in three markets segments and three technologies. This is our **3x3 business scope**.

We **align the company with the relevant trends** regarding market positioning, company culture, and value creation.

We generate sustainable added value for all our stakeholders with a **long-term focus**.

We take a strong position in our target markets – with a global approach and through **close relationships with our customers**.

We are a leader in innovation and master the key technologies to provide our customers differentiated, high quality and **convincing solutions**.

We **create value for our customers** by enabling them to perform.

We continuously improve our processes and services and create additional differentiation through a **powerful supply chain**.

We have a company culture that promotes outstanding performance on the basis of having **the right people at the right place and common values**.

We have **high ambitions** and want to surpass our set goals regularly.

The dimensions of our vision

Our values promote entrepreneurial spirit and are based on respect for people.

Trust

We give and expect trust

Care

We take responsibility towards employees, society, and the environment

Passion

We strive beyond the expected

Transparency

We collaborate openly and honestly

Accountability

We take ownership and deliver what we promise

Sustainability

A conceptual image showing a human hand pouring water from the fingers onto a row of five small green seedlings growing out of dark soil. The seedlings increase in size from left to right. The background is a bright, out-of-focus green field with a warm, golden light source in the upper right corner, creating a lens flare effect.

HUBER+SUHNER takes its responsibility towards society and the environment seriously. Therefore, its managers incorporate social and environmental aspects into their decision-making, considering the interests of key stakeholders.

13 material topics

Business relevance and impact on key stakeholders

Score card

2023 performance and targets for the three focus topics

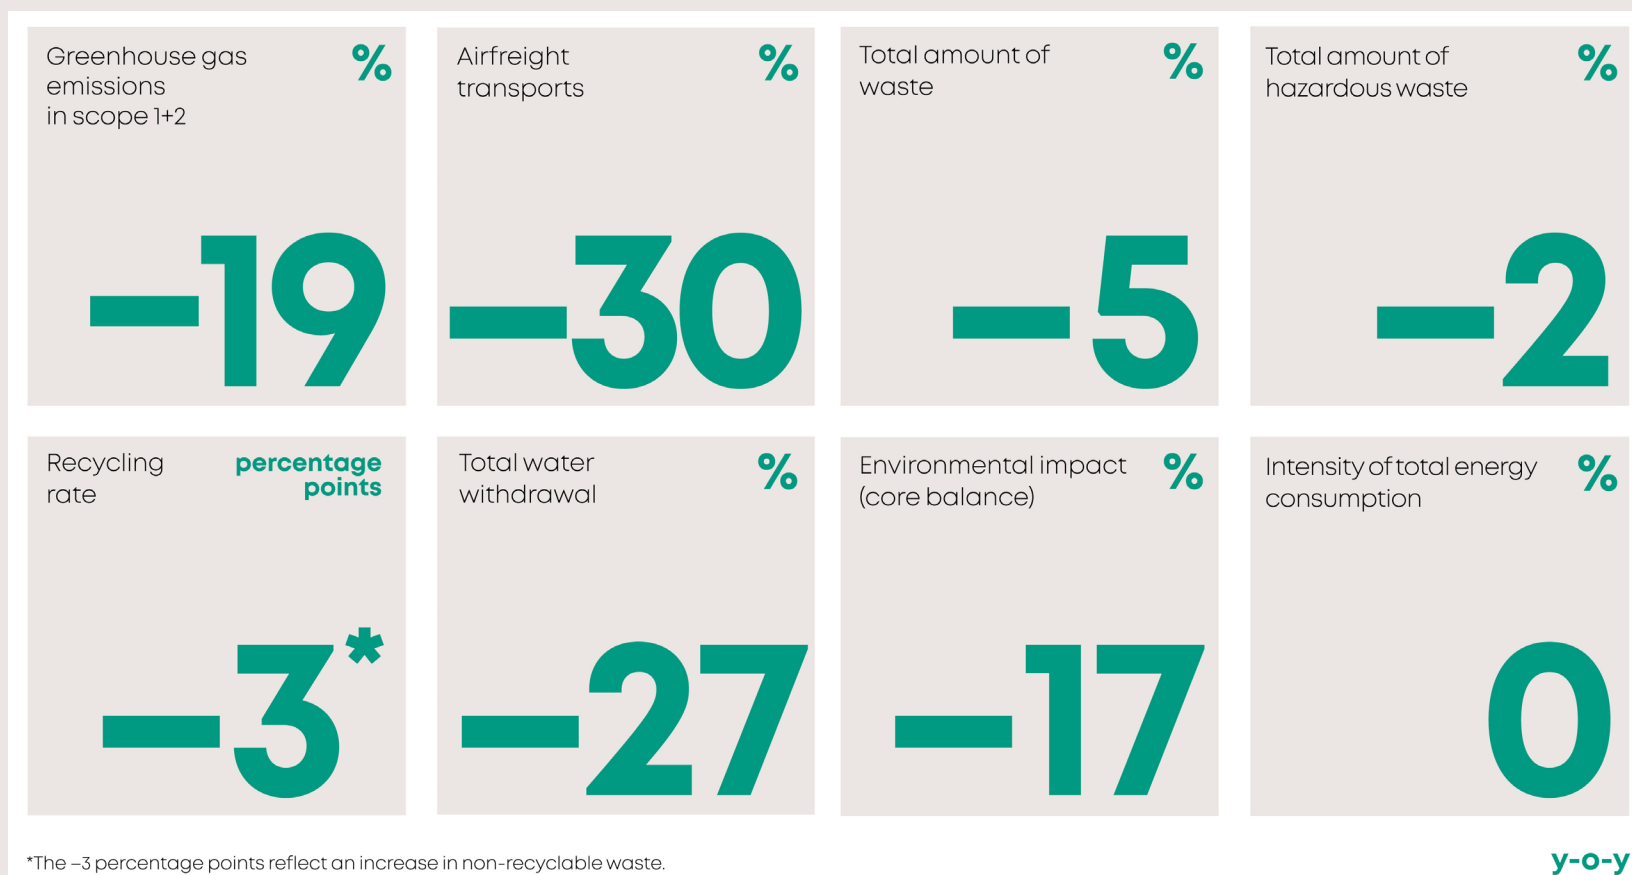

Focus topic	2022	Target	Time horizon
Sustainable growth	31 % of net sales from growth initiatives	> 33 % of net sales from growth initiatives	2023
Climate change and greenhouse gas emissions	7,735 t CO ₂ -eq (scope 1+2)	8,400 t CO ₂ -eq (scope 1+2)* Net-zero CO ₂ -emissions (scope 1+2)	2025
Community involvement and development	CHF 515,000 spent on 211 community development projects	The company sets aside and spends at least 0.5 % of the budgeted EBIT or CHF 500,000**, whichever is higher, for community development projects as a matter of principle	Annual target

This SBTi approved target will be replaced by new science-based targets in 2024.

** The funds will be provided from the operating business as well as from the Swiss-based HUBER+SUHNER Foundation (see chapter Annual Report 2023, chapter ["community involvement and development"](#)).

Sustainability

Positioning

Connecting challenging and critical applications with reliable solutions, ensuring lifetime data integrity and power transmission – today and beyond.

Our solutions for the Industry market

Our solutions for the Communication market

Data Center

CEM Components

Mobile Network

Fixed Access Network

Positioning
Connecting communication systems to a reliable, future-ready physical layer that ensures performance, density and scalability – today and beyond.

Our solutions for the Communication market

Data Center

- Structured cabling
- Bandwidth expansion and transceivers
- Optical circuit switching
- Timing synchronisation

CEM Components

- Radio frequency components
- Fiber optic components
- Optical coupling modules for transceivers

Mobile Network

- Timing synchronisation
- Optical circuit switching
- Harsh environment cabling
- Antenna solutions
- Bandwidth expansion and transceivers

Fixed Access Network

- Outdoor connectivity
- Indoor connectivity
- Bandwidth expansion and transceivers
- Optical circuit switching
- RF video overlay
- Hybrid Fiber Coax solutions

Our solutions for the Transportation market

Rail Communications

Rolling Stock

Electric Vehicle

Advanced driver assistance system
(ADAS)

Positioning
Connecting rail and road
mobility with sustainable
solutions that ensure
efficient electrical
transmission, high-
speed data transfer, and
autonomous control –
today and beyond.

Our solutions for the Transportation market

Rolling Stock

- In-carriage wiring solutions
- Inter-carriage wiring solutions

Rail Communications

- Train-to-ground communication
- Ground communication
- Communication-based train control (CBTC)

Advanced driver assistance system (ADAS)

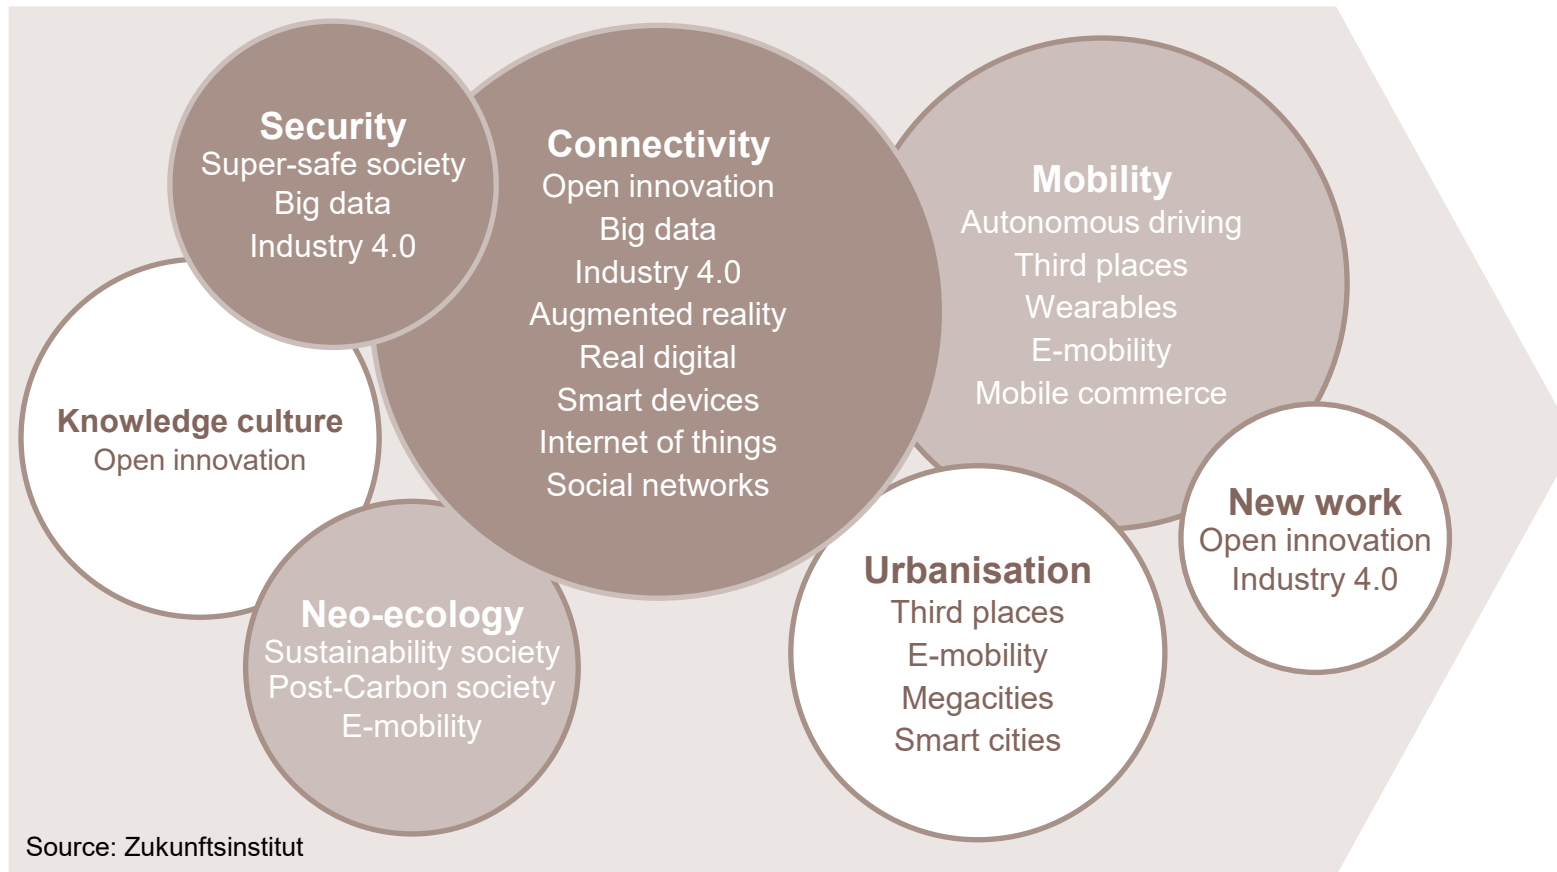

- Wireless communication between vehicles
- V2X (vehicle to X)

Electric Vehicle

- On-board network wiring
- High-voltage power distribution

Strategic focus

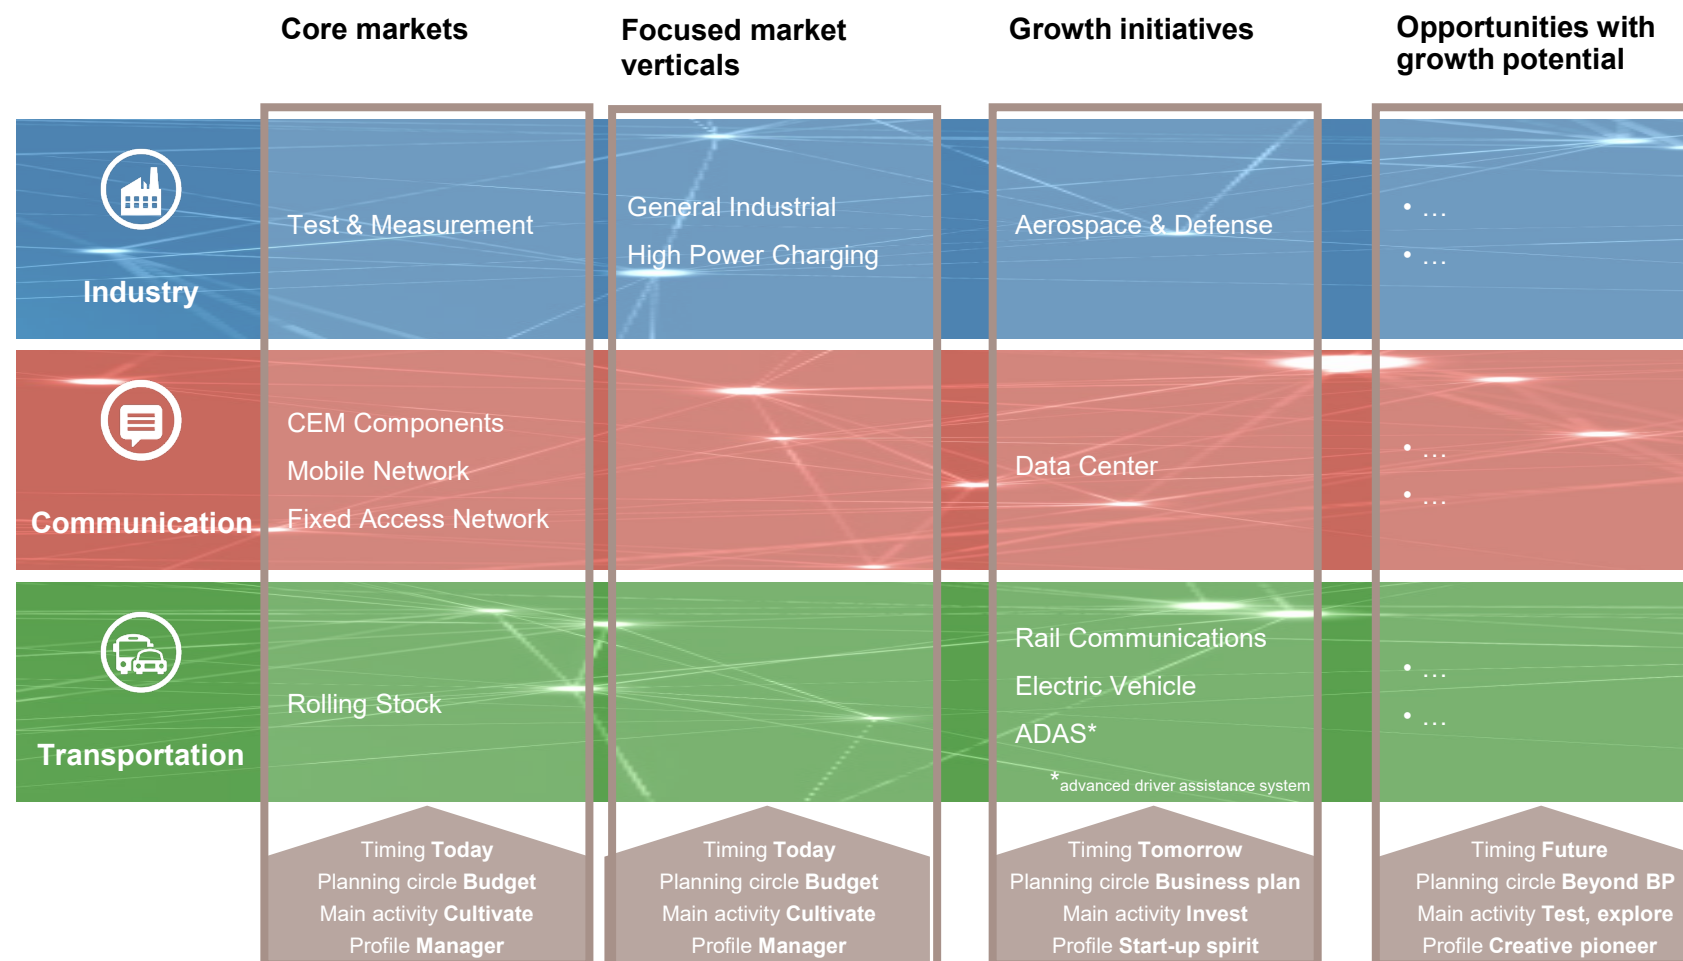

Focused strategy aligned with megatrends

**Strategic
focus**

The dimensions of our strategic focus

We strive for a balanced and focused diversification of our business at all times by managing our current business and developing new opportunities for the future.

Core markets

Core markets are our foundation. Their turnover is crucial to secure the company we have today in terms of size and setup. Our aim is to be in attractive core markets which allow our company to use all its strengths to take a strong position. Their contributions are essential to meet today’s goals and fund our growth initiatives.

	Core markets	Growth initiatives	Focused market verticals	Opportunities with growth potential
.....  Industry	Test & Measurement	Aerospace & Defense	General Industrial High Power Charging	<ul style="list-style-type: none">• ...• ...
.....  Communication	CEM Components Mobile Network Fixed Access Network	Data Center		<ul style="list-style-type: none">• ...• ...
.....  Transportation	Rolling Stock	Rail Communications Electric Vehicle ADAS* <small>*advanced driver assistance system</small>		<ul style="list-style-type: none">• ...• ...

Growth initiatives

Growth initiatives have been identified based on their potential for future profitable growth and their strategic fit. In order to succeed we ensure a dedicated approach, pre-investments in resources and the formation of highly committed teams. Our today's growth initiatives should become core markets of the future.

		Core markets	Growth initiatives	Focused market verticals	Opportunities with growth potential
.....		Test & Measurement	Aerospace & Defense	General Industrial High Power Charging	<ul style="list-style-type: none">• ...• ...
.....		CEM Components Mobile Network Fixed Access Network	Data Center		<ul style="list-style-type: none">• ...• ...
.....		Rolling Stock	Rail Communications Electric Vehicle ADAS* <small>*advanced driver assistance system</small>		<ul style="list-style-type: none">• ...• ...
.....					

Focused market verticals

Focused market verticals are niches or applications which offer a high degree of differentiation and thus attractive margins.

They differ from growth initiatives solely by the fact that the market does not offer HUBER+SUHNER the potential to generate sufficiently high sales to become a core market over time.

		Core markets	Growth initiatives	Focused market verticals	Opportunities with growth potential
.....	 Industry	Test & Measurement	Aerospace & Defense	General Industrial High Power Charging	<ul style="list-style-type: none">• ...• ...
.....	 Communication	CEM Components Mobile Network Fixed Access Network	Data Center		<ul style="list-style-type: none">• ...• ...
.....	 Transportation	Rolling Stock	Rail Communications Electric Vehicle ADAS* <small>*advanced driver assistance system</small>		<ul style="list-style-type: none">• ...• ...
.....					

Opportunities with growth potential

Opportunities with growth potential are attractive business ideas at an early stage. They prove either to have the prospect to become a growth initiative or an interesting niche business – or they are not pursued. We therefore strive to always have a range of «beyond bold moves» in the pipeline.

Our way forward

Ambition

Hold a strong position in target markets

Our profound knowledge of customer needs and our unique combination of technologies ensure our strong market position. We provide reliable quality products and services which generate the highest added value for our customers.

Strong market position

- High market share in target markets
- Established brands
- Focus on growth markets

Reliable products and services

- High-quality, broad product range
- Consistently high quality
- Fast and reliable global service

Added value for our customers

- Continuous innovation
- Profound knowledge of applications and customer needs
- Unique combination of technologies
- Components and systems

Operational excellence

The basis of operational excellence is our outstanding manufacturing expertise. Our differentiated and flexible supply chain meets individual customer needs in terms of delivery times, reliability, and service. Strict lean management and all-embracing quality management result in competitive costs and high-quality products. By running a global production network we are close to our customers.

Global production network

- Technology centres and local assembly plants with high manufacturing expertise and customer proximity
- Global sourcing network to ensure best production supplies

Differentiated and customer oriented supply chain

- Flexibility, short delivery times and reliability thanks to close, tailor-made customer care
- For each customer the right supply chain management with fast delivery times and individual value-added services

Competitive costs and high quality

- Lean management: cost-optimised, fast and stable processes
- Quality and environmental protection through global process and quality management

Be a leader in technology and innovation

Innovation in our company targets three different fields to ensure the high degree of differentiation of our connectivity solutions: improvement of existing products in terms of costs, development of new product generations and applications, and the exploring of new technologies and new business fields.

Product care

- Improve functionality
- Reduce costs
- Range adjustments

New products

- New generation of products
- New applications
- Additional functionalities

New technologies / new business fields

- Development of new technologies
- Entry into entirely new business fields

Connecting – today and beyond
